“VISION”

- * The vision for the Association of Students of Electronic Engineering is to cultivate a vibrant community that serves as a hub for collaboration, learning, and professional development. Our goal is to create an inclusive space where electronic engineering students can connect, share ideas, and embark on projects that showcase their skills.
- *Through a series of workshops, seminars, and hands-on projects, we aim to supplement academic curriculum with practical experiences, fostering a deeper understanding of electronic engineering concepts. Our vision extends beyond the classroom, emphasizing the importance of networking and engagement with professionals in the field.
- *By establishing strong ties with ALUMNI, we seek to provide members with opportunities for internships, mentorship, and exposure to real-world applications of electronics engineering. the association aims to be a catalyst for innovation, encouraging members to explore emerging technologies and contribute to the advancement of the field.
- *Ultimately, our vision is to empower electronic engineering students, equipping them with the knowledge, skills, and connections necessary for successful and impactful careers in the ever-evolving world of electronics. Together, we strive to build a community that fosters both personal and professional growth, ensuring a bright future for the next generation of Electronics!

ELECTRONICS DEPARTMENT

The Department of Electronics Engineering was established in 1990. It has committed Faculty members for taking care of academic and other requirements of the students.

It offers B. Tech. in Electronics Engineering with intake of 45 students and M. Tech. in Electronics and Communication Engineering with intake of 18 students. In addition, for Ph.D. programme there are two seats under QIP and one seat under TEQIP II as research cum teacher fellow. At present there are seven Ph.D. scholars under QIP/TEQIP. Besides this the Department is also offering regular Ph.D. programme as per HBTU ordinances. The Department has successfully implemented many sponsored projects funded by World Bank and Swiss Govt, AICTE, DST, DRDO and TEQIP. The Board of Studies of the Department regularly updates the syllabus to meet the requirements of Industry and Academia. The Department is having well equipped labs and software for Virtual Instrumentation, VLSI Design, PCB Design, Signal Processing, Optical Networks etc. Various extracurricular activities are regularly organized by the students under the aegis of Association of Electronics Engineers for their overall development. The students of the Department are well placed in Govt. Sector, Private sector, MNCs, Civil Services, Engineering Services, academics and R & D. A good number of students also go for higher education in IISc, IITs, IIMs and in reputed foreign universities for masters and doctoral programs.
